Undergraduate Programs in

Biology

UNIVERSITÉ Concordia UNIVERSITY

Are you fascinated by living organisms, and concerned about the state of our planet? Do you want to be a player rather than an observer in the new knowledge economy?

If you answered yes to the above, the Department of Biology has the program for you.

As a student in the Department of Biology, you will learn about the major environmental threats to biodiversity, learn how cells and organisms function, acquire the latest skills at the forefront of the biotechnology revolution, and apply this knowledge to make human life more ecologically sustainable. Our Department is located in the state-of-the-art Richard J. Renaud Science Complex on the grounds of the beautiful Loyola Campus. We have spacious undergraduate teaching facilities and some of the finest research laboratories in the world. You will have the chance to work directly with our accessible and outstanding professors to gain practical research experience.

Cell Biology
Genomics
Biotechnology
- BSc Honours in Cell and Molecular Biology
- BSc Specialization in Cell and Molecular Biology

Ecology
Environmental Science
Conservation Biology
- BSc Honours in Ecology
- BSc Specialization in Ecology

Biodiversity
Organismal Biology
Pre-med Biology
- BSc Honours in Biology
- BSc Specialization in Biology
- BSc Major in Biology

An undergraduate degree in Biology is a stepping stone to exciting careers in the environment, science, health sciences and biotechnology.
